

The diagram illustrates a mechanical system with the following components and connections:

- 1:** A large vertical rectangular frame or support structure.
- 2:** A horizontal bar or shaft passing through the frame.
- 3:** A small rectangular component on the bar.
- 4:** A small circular component on the bar.
- 5:** A small rectangular component on the bar.
- 6:** A large cylindrical component at the bottom of the frame.
- 7:** A small rectangular component on the bar.
- 8:** A small rectangular component on the bar.
- 9:** A small rectangular component on the bar.
- 10:** A small rectangular component on the bar.
- 11:** A small rectangular component on the bar.
- 12:** A small rectangular component on the bar.
- 13:** A small rectangular component on the bar.
- 14:** A small rectangular component on the bar.
- 15:** A small rectangular component on the bar.
- 16:** A small rectangular component on the bar.
- 17:** A small rectangular component on the bar.
- 18:** A small rectangular component on the bar.
- 19:** A small rectangular component on the bar.
- 20:** A small rectangular component on the bar.
- 21:** A small rectangular component on the bar.
- 22:** A small rectangular component on the bar.
- 23:** A small rectangular component on the bar.
- 24:** A small rectangular component on the bar.
- 25:** A small rectangular component on the bar.
- 26:** A small rectangular component on the bar.
- 27:** A small rectangular component on the bar.
